Made in Mexico

Notes Be very careful to only use the following film grade: ISO T2327.740

Customer PO# must appear on labels, pallet wrap, and all packing lists and bills of lading.

Label each roll inside and outside, plus pallet tag. Place corrugated sheet on pallet then rolls on top and then corrugated sheet on top of rolls then stretchwrap. It is very important to protect the edges of these rolls from damage.

Rolls must deliver to customer in original stretchwrap on pallet and in truck without hazardous materials.
